

9Review Officer (Liverpool)

The Local Government Boundary Commission for England

PO Box 133

Blyth

NE24 9FE

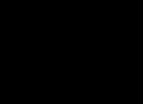

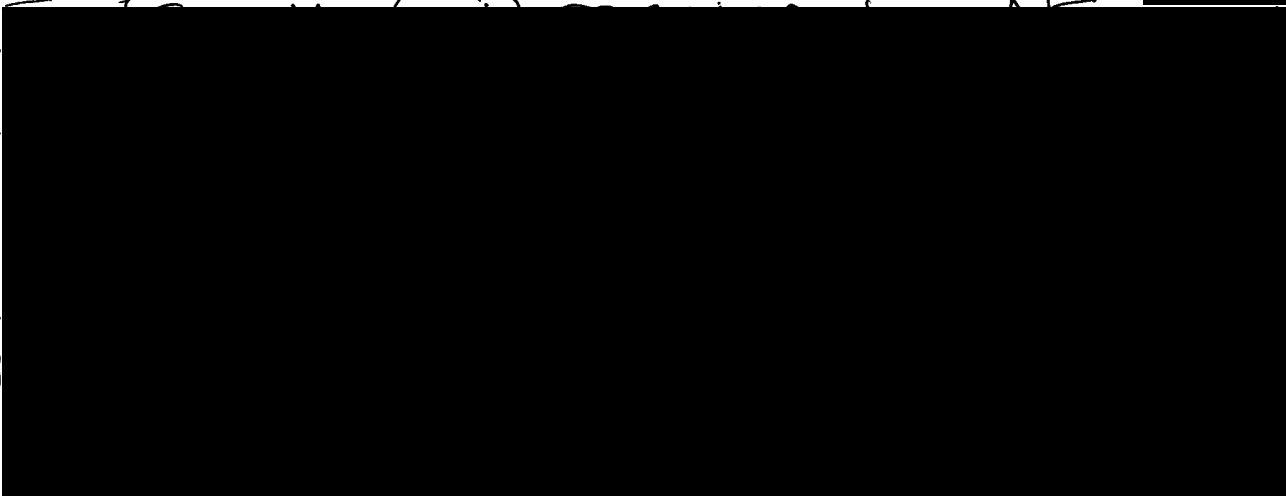

**Petition calling for the boundary commission to keep Everton West Ward and
not take away our community identity**

**We the undersigned want West Everton not to be part of the proposed 'Scotland Road' in
2023**

We firmly believe having a smaller ward will mean that a larger section of our community in Everton West residents will get a better deal from our councillor. A greater number of our community will have more of a voice and we will have much better awareness of who is representing us and who we need to hold to account.

Our Area has been neglected for a long time, and with the news of the proposed Scotland Road ward it is a very real possibility that this will continue with two councillors who can 'hide behind' one another. Who is accountable?.....

We the residents of Everton West are crying out for dedicated representation and for someone to care about our area. Only 1 elected individual will reassure us that this will actually happen. With the proposed Scotland Road ward, We the residents are facing the thin end of the wedge yet again. The proposed ward is too large to ensure effective governance and accountability will take place.
