Comment text:

I would strongly disagree that the proposed new boundaries are sensible. I have reviewed your map of current and proposed boundary lines, and the existing boundary provides a far more practical clearly defined geographical boundary for everyone to understand both in the local community and further afield. The Coalway road provides a clear boundary for the Penn ward area. The suggested changes leave Penn Ward no strong or clearly defined boundaries. One of your priorities is that you want your proposals for new electoral arrangements to reflect communities. The Penn area remains a popular and sought after place to live. To change the boundary I believe would have a detrimental affect property price for people in the local area. I have lived in Penn my whole life and my mum lives on the Coalway. I specifically brought my house to live around the corner from my mum as I love and support my local area. To change the boundary would affect many people along the Coalway road in terms of their local identity. I think it could also have a detrimental affect on businesses along the road which add to he profile of the local area. Penn ward boundaries should be maintained as they currently are, as it has similarities with Merry Hill Tettenhall Regis, Tettenhall Wightwick as these 3 wards are already recommended by lgbce and the local council to remain as they are.
