Subject: Penn ward boundaries change

Categories: Submissions, Matt

I strongly object to the changing of the penn ward boundaries.

- the number of electorates in the ward is within the required range
- we would lose our only Catholic Church
- other areas such as Tettenhall will remain unchanged, so why must penn be changed?
- I am a resident in an area that will be directly affected and I do not want the boundary changed as it will affect my property price
- I chose to live in penn and do not want the change

(I only knew about this proposed change and consultation due to a random share on Facebook. I have several family members and friends, particularly older generations, who are completely unaware this is taking place. This is outrageous, you need to contact every resident in penn in writing to explain this proposal and extend the consultation period to give them opportunity to have their say)
