

Dear Local Government Boundary Commission,

[REDACTED] Upon the release of the possible updated boundaries it has caused absolute outrage amongst fellow residents within my area. Residents on this road and within the area see Coalway Road as the heart of Penn and view this as obscene to see areas of the road have moved into Graiseley. Upon viewing the map surely it makes much more sense for the boundary of Graiseley to be above Coalway Road and to not include it. After much discussion with fellow neighbours and residents, we cannot see any logic in including Coalway Road as part of Graiseley. We request an urgent change to the boundary and we as local residents are not happy. The government is here to serve the people of this country and this is achieving much the opposite. I like many others are not happy with this and hope you get in touch very soon!

Kind Regards
