Organisation Name:

Comment text:

Firstly, the "Details of the selected area" on your consultation page talks about a forecast electorate but doesn't state what timeframe that is for. Secondly, you state that "There is plenty of information to help you make a submission in the 'Related links' section at the top right of the page." however there is no such link and no information available. Perhaps you would like to rerun the consultation when you are able to publish information for us to comment on?
