I would be concerned about any changes to the Mackworth/Mickleover boundary. The new estates close to the boundary (Hackwood) have very different requirements in funding and priorities to the older Mackworth estate. There is a large community spirit in Mickleover as a village and that community raises funds and directs the funds across the ward and as a new resident, I wouldn't want to fall in to Mackworth and lose that. If there was a need to adjust the residents/councillor ratio, I would have thought moving the boundary of Mackworth north to a large Allestree ward would make sense. The boundary shouldn't be beholden to a major road boundary, even if that's the simple answer.
