### Comment text:

Consider how many schools are available within each ward for the children that live there. Children should not have to attend a school outside of their ward when they live well within it's boundary. Particularly as the councillors are then not as involved with the schools that the children of their ward attend eg Oakwood. When we lived in Oakwood our catchment school was in Chaddesden. No support from councillors for the many families that attended a school out of ward.
