I believe that the submission by Councillor Baggy Shanker is the right way to proceed. The Boundaries Commission for England should look at the new communities that have developed during the time from the last review of the Ward Boundaries. utm_source=linkCopy&utm_medium=social&utm_campaign=sharebar It is not any good sticking to the status quo! Too many councillor's have a vested interest in in keeping their own Ward's intact, as one councillor inferred that he had spent 15 years nurturing his electorate. Please Boundaries Commission for England, consider the proposal from Councillor Shanka!
