Comment text:

Oakwood has clearly defined geographical boundaries. Perhaps more importantly, residents of the ward have a strong sense of belonging to the community. Oakwood is a purpose built "new" suburb. There is an emerging cohesion which residents, groups, businesses, organisations and councillors have worked hard to foster. To split the ward boundary will directly affect this and could potentially damage those in our thriving community who gain most benefit from it. I work in a voluntary capacity with a very vulnerable cohort in Oakwood and each one, without exception, are brought great comfort and benefit from the sense of belonging to such a caring community. Please do not allow the senseless split of the present Oakwood ward. If numbers have to be reduced it would make infinitely more sense to take out the portion of Chaddesden currently within oakwood ward. Thank you.
