### Comment text:

My Name is [REDACTED] and I am writing to object to the proposed Boundary Changes in Astley Bridge . I believe that to take out chunks of our ward will be unfair to the people who live in the ward. our ward is multicultural we have people of all faiths and none who attend the churches and mosque in the area ,recently we were granted planning permission to build a new mosque and community space to replace our present mosque in Ramsey St, this application was supported by residents and will be funded via our local Muslim community many of whom may now find themselves out of the ward but living in South Turton indeed those living in the Templecombe and Whitehill lane estates whose children attend High Lawn and the Oaks primary school and Thornleigh and Sharples secondary schools will find themselves with no local schools in their area. I believe that it is wrong to split such a close community and I would ask you to think again [REDACTED]
