Comment text:

I wish to put forward by strong objection to the current proposals for Bolton which would see the ward of Astley Bridge split up, with a number of residents moved into a new South Turton Ward. I am a long-standing resident in the area and an active member of the Friends of Astley Bridge Community Group. The group has been carrying out positive work in the area for many years and has created a real sense of community for residents, whether through out artwork displays or the events that we hold each year on Andrew Lane Park. It would be egregious to split up the area and undo much of the work that we have done to bring people together. The proposals to divide Astley Bridge would rip the heart out of the community and should be reconsidered.
