Comment text:

I am writing to register my opposition to the proposed changes to the Astley Bridge Ward in Bolton. I am against these proposals because I believe it will destroy the heart of a community which has a long and proud history. These proposals will remove many crucial focal points that are used for community events, including Andrew Lane Park. Over the years, the strength of this local community has been reflected in the number of community organised events that have taken place, such as an Easter Egg hunt, Christmas lights switch on and a Remembrance service, all of which would not have been able to happen without strong community groups, like the Friends of Astley Bridge. Carving up this distinct and historic community I believe would be detrimental to future community led events. I also oppose the Commission's proposals because they will also lead to many residents no longer living within the existing ward but still being dependent on local facilities such as shops, community hubs and local churches, which would remain within the existing ward. Residents in the areas which are proposed to be moved belong in Astley Bridge. It is for these reasons why I wish to confirm my opposition to the proposals that have been put forward.
