Organisation Name:**Comment text:**

I am a local resident within Astley Bridge and would like to register my views regarding the proposed changes which would see a large part of the current ward move into a new ward of South Turton. As well as living in the area, I am a community litter picker with Andrew Lane Park being one of my regular areas to clear up. The park is well used by residents from across Astley Bridge and is used to host wider community events through the year. By taking it out of the ward, along with residents that live in the surrounding area, the community would be split in two. It would be doubly divisive as residents in this area have no connection with Turton and so would be removed from their own community and placed with other areas that are not linked. These proposals should be reconsidered in respect of Astley Bridge.
