Comment text:

I object to the proposed changes to Astley Bridge/South Turton ward. The proposals will split up the existing community and would result in the removal of the local park on Andrew Lane from the ward. This would be a huge loss to the area. The park is the central point for various community activities including easter egg hunts, halloween events and an annual xmas fair. The loss of this park would remove the one remaining point that brings the community together. The shops and community facilities used by residents fall within the existing ward. The area proposed to join South Turton is geographically distant from the rest of the South Turton being divided by the valley and the river. Residents in these areas naturally use the doctors, shops and community facilities in Astley Bridge. There is little connection with the proposed new 'South Turton' ward. This appears to be an ill thought out, uninformed decision, made by looking at a map, but with no consideration given to how the local community functions.
