Comment text:

I am against the proposals to split up the Astley Bridge ward because I believe these changes takeout the heart of our community. The Astley Bridge and Sharples area has a long history and we come together as residents to work together on a large range of projects. Locally we hold events on Andrew Lane park such as the annual Christmas lights switch on, Remembrance Day and Easter egg hunts for local children. These events bring people together and provide a real sense of community for local residents. The residents in the area around Templecombe Drive and Eagley Bank are a real part of these efforts and it would be wrong to remove them from the ward of Astley Bridge. The residents of the affected areas are really invested in Astley Bridge and have no natural link to the proposed South Turton ward. Physically they are cut off with the only direct links coming through the Astley Bridge ward. It would provide no benefit to the local area to press ahead with these proposals.
