Comment text:

As a long standing resident of Astley Bridge, I want to make my opposition known to the proposed changes to the Astley Bridge Ward in Bolton. Astley Bridge and Sharples is one of the oldest parts of Bolton with a huge history and only agreed to join Bolton in 1897. I feel that the area should not be split up as we do not want to see such a historic community destroyed. With such a strong community, I think the Commission should rethink their proposals and not carve up such a historic community.
