Comment text:

I wish to express my objection to the Boundary Commissions proposals and in particular the changes to the Astley Bridge ward, where I reside. The Astley Bridge ward is a historic community which has been successfully brought closer together by local Cllr's over the last twenty years. Splitting the ward into two along the lines proposed would make a number of local events such as the Easter Egg hunt, Christmas lights switch on and remembrance event held on Andrew Lane park obsolete. This would be a regretful step backwards. In addition, local residents in the areas which will be moved into the new ward of South Turton primarily use shops and facilities in the current ward. We all work well across schools, community groups such as the Friends of Astley Bridge and churches, do not undo the positive local community that we are a part of.
