Organisation Name:

### Comment text:

I currently live in Astley Bridge and would like to register my objection to the proposals which would split up the area and create a new ward of South Turton. Astley Bridge is not just a council ward but is a historic area in its own right going back hundreds of years. The area was brought under Bolton Council in 1897 and has continued to exist as a distinct area from that time. Residents in the area have a strong local identity and are proud to call Astley Bridge home. Regular events are held locally such as the Remembrance parade and the Christmas Lights switch on which are very well attended from across the area. I would therefore like to object to the splitting up of this historic community.
