### Comment text:

I am a resident of Astley Bridge and would like to register my objection to the proposed changes to my ward. Local community groups and our local Cllr's have worked hard in recent decades to foster a real sense of community. The Friends of Astley Bridge and local ward Cllr's organise a number of events such as the Christmas lights switch on, community artwork and local flower troughs which are well supported from across the current ward. The residents that live in the areas of Astley Bridge that are being moved into the South Turton ward are heavily involved in Astley Bridge and have no real connection to the newly proposed wards. Astley Bridge is where they shop, work, attend religious worship and is often where friends and family reside. We are all one community. The current proposals would split up our community and need to be reconsidered.
