Comment text:

I would like to join with our family and other local residents in objecting to the planned changes to the Astley Bridge ward on Bolton Council. We are ONE local community which would be split making current community events such as the Christmas lights switch on at Andrew Lane park obsolete, thus destroying what has been built successfully over the last 20 years by local Cllr's and the Friends of Astley Bridge community group. Furthermore, shops and facilities such as those on Blackburn Road are used by residents on both sides of the proposed lines. Residents in these areas do not use facilities and shop regularly in the South Turton ward and have no affinity to the other areas of the proposed new ward. In closing, the residents of the current ward share local identity, we work well together across all schools and church communities and do not wish to be divided in the manner that the Boundary Commission have proposed.
