Comment text:

I am a resident of Astley Bridge and would like to strongly object to the new boundaries that have been proposed for the ward. I do not believe that these proposals have any merit and they do not reflect the area or how close residents are in the community. Astley bridge has been a thriving community for 100s of years with lots of our events held around Andrew Lane Park such as the Christmas Lights switch on, Easter Egg hunt and community displays. In Bolton, Astley Bridge is one of the very few communities that still get together still have community spirit and look out for each other. Eagley bank especially is where lots of our elderly community live and their only interaction some days is with groups within Astley Bridge. I cannot put into words how strongly I disagree with this shocking proposal.
