Organisation Name:**Comment text:**

I would like to add my name in opposition to the proposed changes to the Astley Bridge Ward. With a long and proud history, the Astley Bridge community is a distinct geographical area with several generations of families living there. It is wrong for the Commission to propose breaking up parts of this tightly knit community, particularly when the community spirit is so strong, as reflected in several recent events organised by the Friends of Astley Bridge. It is for the sake of our strong and historic local community that I wish to express my opposition to the Commission's proposals.
