To Boundary Commission,

I live in Longford Ward and on your plans would still do so after boundary changes. I want to support your proposals. These give clearer boundaries to Longford particularly along the A56 and Seymour Grove.

They also address the projected growth of Longford Ward and I am therefore pleased to see the changes redistribute electors west. I would also wish to place on my record my support for all of your 8 wards north of the Mersey (Urmston and Stretford areas). These are fairer and all have good boundaries.

Thank you for your work and the chance to respond.
