Subject: Ward change proposal

Categories: Submissions, [REDACTED]

Good Morning,

It has come to my attention that there is talks to change our ward to drop Sale West to include Warburton and Dunham. Living in Partington I don't feel that we are linked to Dunham at all or those other likewise rural areas. There's no proper transport links or anything that links us together other than it is close by, but again they are two completely different areas and communities. I feel our community has better ties to Sale West and surrounding areas in that we are much more like those areas. We are not a farming community and we already deal with poor means of transport out of Partington to get to the areas that are much needed and used by our community I think this change will lead to us being further pushed back, and forgotten. Isolated from our neighbouring towns that we use so much. I do hope the opinions of the local residents will be taken into consideration when making these changes

Kind Regards,
[REDACTED]
