To whom it may concern,

I'm writing this email to air my concerns towards the proposed change of the above wards.

I don't believe Partington should be married with Warburton and Dunham as Partington is a very different community. I see Dunham and Warburton as very rural and farming communities whereas Partington is proving to be more industrial and town driven. You could almost say that the two reasons are polar opposites, so placing us together wouldn't see our collective interests aligned going forward. We are much more aligned to Carrington's future, as well as Trafford wider reaching outlook.

I hope that this email is met in good faith.

Regards,
