Comment text:

The current ward of Harper Green should solely be in Farnworth and not contain any properties that are actually in the Great Lever area of Bolton The current situation is very confusing both for the Farnworth and Great Lever residents There is actually no connection between the two area and is ver confusing for the electorate Also people in the Highfield area that falls under Harper Green do not identify themselves with the area The New ward should have the word Farnworth in it possibly something like Farnworth North etc
