Comment text:

Why the need for so many councillors apart from to create a useless overpaid position to fill with a vetted & approved pencil pusher? Someone to toe party lines & not actually represent or be in a position to empathise with the very people they are supposed to represent. Just seems to be an exercise to use public funds over an issue that doesn't even need addressing to start with. So how much so far has been spent on this, including various subcommittees & meetings to determine or vote on whether to bring this about in the first place? Again point in case of spending money because it there but not using on relevant issues like crime. Which is a major issue in Breightmet, how many stabbings have to happen for more policing up here? Why are residents here looking at possibly getting private security firms to cover the area? How many near misses do kids have to have with speeding drivers? The police helicopter is flying over here so much you may as well put a helipad & stop over point for the pilots. Use whatever money your using here on extra Police with actual powers to achive an empirically significant & positive result.
