Bradshaw ward: The natural boundary along Stitch mi Lane should run on to Longsight Lane. Top oth Brow area can then be reunited with Breightmet ward. This area shares more in common with amenities and services within Breightmet such as the high school and primary school. Also, properties here are served by Bolton at Home social housing providers. The community was split in 1977 when boundaries were changed just to play the numbers game. A small part of Breightmet was split away. This review should see it put back.
