### Comment text:

As I previously stated, I believe it would be a pity, a disgrace and one almighty mistake to even think of changing the current Oakwood Ward boundaries. We have such a great community spirit here, with all manner and ages of folk volunteering to keep our community tidy and tight knit. If anyone is in need (particularly the disabled and vulnerable), there is always help at hand. Has anyone on the Boundary Commission even thought how changes may affect a lot of Oakwood's more elderly residents? I very much doubt it. Changes of this nature could confuse a good many of them, causing upset and stress at a time in their lives when the most important thing is peace and stability! I do not wish to make this a long comment, but please think again; very carefully, of all and any changes you are considering making to this most beautiful of Wards. Thank you and God bless you.
