Local Government Boundary Commissions

Re Derby City Boundary proposals

The proposals to the boundary changes for the Alvaston Ward will mean that the candidates that I vote for who are all hard working and I think do a very good job will be at risk of political gerrymandering should these changes go forwards.

I do not want to sound non inclusive, but the residents of Osmaston are not really part of the Alvaston community as they have a seemingly different cultural identity than the residents of Alvaston.

The proposed changes seemed to have missed this particular point.

I do not support the changes and must object to them most strongly and want the commission to go back to the status quo, with minor changes, which has been with us for many years.

Yours Sincerely
