Proposed Boundary Changes

We object to the proposed boundary changes where Wick is due to be removed from the Fladbury ward and being placed in the Pershore ward.

Our reasons are as follows:-

Wick has been part of Fladbury for a number of years and works well as a rural area.

WDC councillors have well understood rural issues

Pershore is a town, Wick is a rural village with different issues.

Wick is a thriving community with many community groups.

Population of Wick is about 365, Pershore about 7,255.

If Wick were to join Pershore ward then we would be poorly represented.
