Comment text:

I wish to lodge my objection to the further draft proposals which combine Drakes Broughton with Norton and Whittington, all the way up to the Southern Link Road in Worcester. Besides already containing far too many people to achieve roughly equal size wards, the potential for further development in the whole area changes the pace and quality of life for residents. The initial draft proposals feel like a more natural split and does not combine the rural areas of Drakes Broughton, Peopleton, Wadborough and Pirton with areas such as Norton including the Motorway and bordering the City of Worcester.
