Comment text:

As a resident of Wick village I wish to register my objection to the proposal to transfer Wick representation from Fladbury to Pershore ward, on the following grounds: • Wick (population 365) is a rural village with 4 working farms and has much in common with Fladbury, whereas Pershore (population 7255) is an urban community of mixed commercial and residential premises. • Recent surveys have confirmed Wick residents' desire to further develop its community groups and interests. • Absorption into Pershore ward would be detrimental to the aspirations and interests of the Wick community, who would be far less well represented. • Wick village is a valued conservation area, and much better aligns with Fladbury in every respect.
