### Comment text:

I live in Wick, and feel that I would like Wick to stay within the Fladbury ward for a number of reasons: - We are a small village, with population < 400, I feel that we would be poorly represented if we are lumped together with Pershore, which has a far greater population. - Fladbury ward is largely rural, Pershore is a town, so the needs are very different. - Wick is a thriving community, which is operating very well to support its inhabitants, within a rural setting, I do not think this would necessarily remain the case if we are lumped together with a large town.
