I wish to oppose the ward changes for Wick. Wick is a small village in a conservation area. I and my wife have lived here for just over six years. I fail to see the logic in moving Wick to join Pershore as Pershore is a much larger town and I feel that Wick will be side lined for any major decisions and will not be properly represented. Also why move other villages into Fladbury ward and take out Wick? There does not seem a valid reason for change. Wick is a farming area and subject to planning rules different from Pershore. If Wick is changed to Pershore ward this could mean a more relaxed approach to planning. This I suspect would not be beneficial to Wick. My wife is in agreement with me on this matter and this is to register her opinion as well. Thank you. [REDACTED]
