I feel that I would like to make my objections known regarding the transfer of Wick from Fladbury ward to Pershore ward. Pershore town being a mostly built up area of approximately 7300 residents has very little in common with Wick whose populations is approximately 20% of Pershore. Wick is a rural farming village and has a thriving community with many local community groups. Wick is also in a conservation area and I can only envisage that if Wck is moved to Pershore we will not receive the same benefits and will be a lesser priority as we now enjoy by being a member of the Fladbury Ward ,
