[REDACTED] To whom it may concern, I am a farmer from Wick. I am writing to express my concern at the boundary changes that are putting Wick in with Pershore, taking Wick out of the Fladbury ward. We are a rural community with rural concerns, very different from a town like Pershore. Wick has four working farms and other rural businesses. It has a thriving, supportive, active, community. It is in a conservation area and has an historical landscape, which is important in these times of diminishing historical landscapes over the country. My concern is that Wick will not get the representation that it needs as the size of Pershore is going to overshadow a small village like Wick. The system of Wick in the ward of Fladbury has worked well for many years, there is no need to change it. Thank you for reading this letter. Yours [REDACTED]
