1The LGBC Is endeavouring to justify that it remain in existence by playing with forecasts on possible population in mid Kent.I cannot find a datum upon which these figures are based. With the current house building and the proposed building in Barming,Lenham, and Marden which the central government insist upon forcing through at any cost to the population or the environment these proposed figures will not achieve a regulated balance, which is stated to be the object of this expensive exercise. 2MBC have stated that a reduction in councillors is being considered,some have proved to be lacking in commitment. 3 Suggestion that Quango LGBC BE ABOLISHED THE MONEY SAVED COULD BE USED TO PROVIDE A BETTER QUALITY OF, LIFE IN KENT.
