A large black rectangular box redacting the personal details of the user.

Comment text:

Makes no difference at all. Our ward is utterly ignored by Maidstone Borough Council. We get all the downsides of the ill considered local developments and no benefits. If you can cut MBC's operating cost by doing this and reduce Council tax then please proceed. I have been  Wychling Council for 12 years. In that time I cannot give one single instance of any of our elected representatives picking up a problem and resolving it for us. It's a running joke in the AONB that the stock reply is "I'm very sorry to hear that, here's some information you already knew, good luck sorting that out yourself"
