Organisation Name:

### Comment text:

I do not think the merger will be in the publics interest for the following reasons: The ongoing issues in the different villages vary enormously and need to be looked at and resolved on an individuall basis.you cannot lump them altogether in a one size fits all basis. The age range in the different areas varies greatly which will again affect the issues in the areas. Trying to get the larger area altogether gir meetings would be logistically impossible. The areas with the must issues would be given the most attention which would be unfair to the smaller villages.
