Comment text:

I do not believe that there should be any change to the Shalford ward boundary and the proposed ward extension would make the area far too big with too many diverse issues to try and address. The Shalford ward and the 3 parishes which are incorporated within it, face similar issues in particular relating to infrastructure and are of a more urban character than those to the east and west. I think Shalford ward should remain as it is, with two councillors representing it.
