It is a positive that there will be fewer Councillors and that the majority of wards will have a single representative. There is though a concern that despite any changes there is a North South divide in Liverpool with the North side not as well cared for than the South. This can be evidenced when you drive round the city seeing the physical differences in terms of roads and housing and the maintenance and cleanliness of public areas inclusive of parks .It is very obvious and the city plan needs to see what it can do in levelling up the North and South of the city in all aspects of life inclusive of education, health , environment, diversity and equality.
