### Comment text:

Why do you feel you have to reduce our councilors from 89 to 85? and change the boundaries? There is surely going to be charges which will have be paid for by us at a time when we are already under pressure with the aftermath of the pandemic. Instead of trying to find more ways to get money out of us, why don't you look at ways to save us money so we can cope better with all of the price increases. I haven't heard a good reason for this change, only that you have carried out a review! If you have a good reason for suggesting these changes, then please let me know
