**OBJECTION TO PROPOSED SCOTLAND ROAD WARD**

To Whom his May Concern,

My Name is [REDACTED] I am 74 and I am born and bred in Everton. My father was born in China Street over 100 years ago. Ever since I was a kid I can always remember being proud of coming from 'Neddy' (Netherfield Road, Everton) and our community and the communities of Scotland road/Vauxhall have always been separate with long standing traditions in both communities. It makes no sense to include Everton West with Scotland Road I mean if Everton WEST was merged with Everton NORTH or South that would be understandable but to merge our home with a completely separate community is something that worries me. I know that everyone I have talked to have an issue with this and have and are raising their objections but I feel if you keep Everton WEST as a single councillor new ward that will give us something we have been missing for so long and that will be (Hopefully) a councillor we can get hold of. Please reconsider you proposal and keep our home

Thank You

[REDACTED]

Everton Resident of 74 years and proud community member
