### Comment text:

The proposed Paddington ward including the hospitals, Liverpool University and Paddington Village makes a lot of sense. Also Toxteth, using the historic boundary of Toxteth Park, ie Upper Parliament Street (and before that an ancient, now culverted river) removes an anomaly where many, including the Echo, the NHS, and even some residents have mistakenly identified properties in the old Abercromby ward as 'Toxteth'. Now the local geography and resident ties to their neighbourhoods should be much clearer. I still think there are far too many councillors however in the new proposals. 30-40 would be sufficient.
