### Comment text:

Are you serious? with everything going on you are spending money on ward boundaries ,is a change going to make any difference in the long run at all? People are struggling, jobs are disappearing at an alarming rate and people are sick and dieing ,blow the boundaries get help from thoughts councilors, to people who need them ,regardless of the boundary lines were all in this together and don't need the local money's spent on a jolly day for you few councilors playing games for the day ,I'm sure many more locals would appreciate you concentrating on local issues rather than who's got the best bit of land or who hasn't
