Comment text:

I'm opposed to this as a whole. I don't see any issues with the way things are currently, and any changes will inevitably mean additional costs and an even greater burden on the taxpayer who, if you need reminding, will be paying back the covid fiasco for at least a generation. If you want to show you're listening to voters, try to stop hosing even more money away on vanity efforts to shuffle the deck chairs on the Titanic.
