

## Brighton and Hove City Council

### Personal Details:

**Name:**

**E-mail:**

**Postcode:**

**Organisation Name:**

**Comment text:**

regency ward should truly represent regency, it should include the Old Steine residences in their entirety recognising the significance and the importance of Old Stein as a community with councillors representing the entire area. Current plans split the Old Steine into 3 wards, this has proven very difficult for residents and businesses to engage with the council as the fracturing of the area makes it impossible to get any joined up action or communication. Enclosing the space under one ward would improve overall responsibility and ownership of this important area. These need to be combined under Regency and then the 3 councillors will have responsibility for the area instead of it being much neglected and overlooked.
