

RE Hangleton and Knoll Ward

11/04/22

To Whom it may concern,

The ward of Hangleton and Knoll must be kept as one, we have been hand in hand for generations, my grandparents lived in the Parish of Hangleton and Knoll, our families all live in the Hangleton and Knoll area. We do not wish to change this, we have the Hangleton and Knoll Project, we had the Hangleton and Knoll Festival, we have the youth workers of Hangleton and Knoll, St Helen's and St Richard's work as one, with a service in each and the congregation attend both.

Hangleton and Knoll have always been as one, and this is how we love it, how we want it to stay. We have a very strong community and have always worked together we have the shops, the parks and the Centres, the local community centres, Hangleton, St Helen's and St Richard's all share groups and bookings, we are very interlinked. The local schools take from the area of Hangleton and Knoll. The local playscheme was again Hangleton and Knoll area. We have always been defined as Hangleton and Knoll, please do not separate us, it would be like losing a limb, like a strong family being split up, and like losing a best friend.

Even the little lemon bus serves Hangleton and Knoll, it's how we have always been and how we would like it to stay.

Personally my grandparents, parents, my brothers and sisters, myself and now my children all have lived in the Hangleton and Knoll area, my sister's family and her sons and grandchildren all still live here as does myself and my family. I know of many families like this.

Please don't break up the community that has been resilient since long before I was born, Hangleton and Knoll are historic and we do not want to lose it as a ward, we have been together since at least 1940 and we should stay together.

Thankyou,

Yours faithfully,
