Subject: Patcham & Hollingbury ward. Local Government Boundary Commission of England: Future of the ward/20-year review. As a resident of Patcham for many years I am strongly opposed to Proposal 2 - the dividing up of Patcham. The communities of Patcham and Hollingbury are historically well-established. Many people who grew up in the area are still here - some now in their seventies and eighties with their children and grandchildren close by spread over these communities of Patcham and Hollingbury. These areas share the same schools and GP surgeries, community groups and interests, libraries and so on. They should therefore be represented together as a single ward. This will be in the residents' best interests. This is overall beneficial to the whole of Brighton and Hove, when communities work well together and have a history together. In brief: I do not support Patcham & Hollingbury ward being divided up. Patcham & Hollingbury must stay together as is the Commission's initial proposal.
